

## **Product Description**

The Torino T5 Wrist Brace provides comfortable, reliable support for weak or injured wrists. Made from breathable, lightweight, latex-free fabric, it features two adjustable straps for a secure, customized fit and dual supportive rigid stays—one above and one below the wrist—that stabilize the joint and help keep it in the correct position when worn. Extra padding around the stays ensures comfort during extended wear, making it suitable for daily activity, rehabilitation, or injury prevention.

## **Indications**

- Support for carpal tunnel syndrome
- Stabilization of weak or injured wrists
- Suitable for daily wear, work, or activity
